

N13

N13 is a good postcode for leaflet distribution when approached systematically and with a good mapping system.

In N13 we can reliably deliver your leaflets to 12,000 households divided into three demographically uniform groups.

Households in N13 are generally located in privately owned terraced and semi-detached houses which is a very positive thing for leaflet distribution.

The number of undeliverable addresses located in difficult to access buildings or flats is fairly low here.

N13 should be considered for any larger leaflet distribution campaign focusing on North London.

Campaigns delivering here often also focus on the neighbouring postcodes of N22 and N11.
